DIE WELT DES WERBENS UND VERKAUFENS

PSI PromoTex Expo viscom

Powerbranche

Alles wird gut, sagte Oscar Wilde. Wenn ich Nachrichten sehe oder die Tageszeitungen aufschlage, dann ergibt sich jedoch ein anderes Bild: Politische Eskalationen, schwächelnde Konjunktur, Umweltschäden und Klimawandel. All das erzeugt eine tiefe Verunsicherung bei jedem von uns. Ein Gefühl, das uns in vielen Lebensbereichen Probleme erkennen lässt, die wir dann schnell überbewerten.

So fragte mich unlängst ein Händler, wohin das alles führen soll: Die Margen schrumpfen, die Kunden werden immer anspruchsvoller die Digitalisierung immer komplizierter und teurer und vom PSI käme auch nicht genug. Ich musste natürlich erst einmal schlucken. Das Wasserglas muss aber nicht halb leer sein. Die Welt verändert sich nun mal und deswegen müssen auch wir uns verändern. Ich erläuterte ihm, was wir alles tun. Alle unsere Aktivitäten und Services fokussieren sich auf den Handel, auch wenn es nicht immer so gesehen wird. Die Fragmentierung der Branche macht es allen Beteiligten dabei nicht leicht. Doch wir sitzen alle im gleichen Boot.

Und wir haben etwas zu verkaufen, das einen ganz entscheidenden Vorteil gegenüber allen anderen Medien und Marketing-Instrumenten hat: Wir vertreiben Produkte, die greifbar, fühlbar und kommunikationsstark sind. Die nachhaltig wirken und immer öfter auch nachhaltig sind – also alles leisten, worauf es heute ankommt. Den meisten Händlern ist dies auch bewusst. Das sehen wir immer wieder bei unseren regionalen Stammtischen, wo diese Themen heiß diskutiert werden und die Grundstimmung sehr positiv ist.

Auch wenn Werbeartikel in den Medien nicht immer gut wegkommen: Schauen wir uns doch lieber die begeisterten Reaktionen an, wenn kommunikationsstarke, qualitativ hochwertige Werbeträger bei Kunden präsentiert werden. Unsere europaweiten Zahlen belegen, wie stark diese Branche ist. Wir werden auf der PSI 2020 in beeindruckender Weise zeigen, wie das Werbeartikelgeschäft weiterhin lukrativ bleibt und wie wir uns die Zukunft vorstellen. Wir arbeiten in einer Powerbranche, das dürfen wir nie vergessen. Dann wird alles gut. Und, was man nicht vergessen darf: Messen wie die PSI sind genau die Orte, an denen man sich intensiv informieren kann: über Produkte, über Lieferanten, über neue Geschäftsfelder und über internationale Trends – wo kann man das sonst?

Es grüßt Sie

Es ist in aller Munde und sorgt in der Branche für Verunsicherung: Das seit 1. Januar 2019 geltende neue Verpackungsgesetz (VerpackG). Die darin festgeschriebene Pflicht, sich an Systemen zu beteiligen und gleichzeitig im Verpackungsregister LUCID zu registrieren, betrifft Hersteller oder auch Händler, die als Erstinverkehrbringer der im Gesetz definierten Verpackungsarten gelten. Wir erklären die neuen Vorschriften und zeigen auf, welchen Verpflichtungen Unternehmen unbedingt nachkommen müssen.

Das neue Verpackungsgesetz

Hersteller sind

in der Pflicht

Berge von Verpackungen und Plastikabfällen überfluten den Planeten und sind aus ökologischer Sicht nicht mehr tragbar. Die Auswirkungen auf Mensch und Natur sind enorm, die Beseitigung des Mülls ist aufwendig und kostenintensiv. Oberstes Ziel muss daher die Reduktion von Verpackungen sein, die tatsächlich angefallenen Verpackungen müssen möglichst recycelt oder umweltgerecht und sinnvoll verwertet werden. Diese Last muss von allen, die verpackte Waren in Verkehr bringen, gemeinsam getragen werden. Das Verpackungsgesetz soll hierzu seinen Beitrag leisten, indem es die Erstinverkehrbringer von Verpackungen stärker in die Pflicht nimmt, Transparenz schafft und die Anforderungen an die Verwertung von Verpackungen schrittweise erhöht. So werden die Recyclingquoten in zwei Schritten (2019 und 2022) angehoben. Für Glas, Altpapier, Eisenmetalle und Aluminium steigen sie von 60 bis 75 auf 90 Prozent bis 2022, für Getränkekartons von 60 auf 80 Prozent und für Kunststoffe von 36 auf 63 Prozent.

Nicht alles ist neu

Bereits in der zuvor geltenden Verpackungsverordnung, die nun durch das Verpackungsgesetz abgelöst wird, wurde das in Deutschland und der europäischen Union festgeschriebene Prinzip der Produktverantwortung des Herstellers konkretisiert. Die meisten heute verbindlichen Pflichten, ebenso wie das Prinzip der erweiterten Produktverantwortung (seit 1993) gab es bereits zuvor. Trotzdem haben sich viele Hersteller ihrer Verantwortung entzogen und sich nicht wie vorgeschrieben an den dualen Systemen beteiligt. Damit soll nun Schluss sein: Um Transparenz, Fairness und Kontrolle im Markt der Verpackungsentsorgung zu erhöhen, wurde die Stiftung Zentrale Stelle Verpackungsregister als neue Bundesbehörde ins Leben gerufen. (ZSVR, mit Sitz in Osnabrück) Hier muss sich jeder registrieren, der mit Ware befüllte Verpackungen (inkl. Füllmaterial), die beim Endverbraucher als Abfall anfallen, erstmals in Deutschland gewerbsmäßig in Verkehr bringt. Dieser Erstinverkehrbringer kann Produzent, Importeur, Online- oder Versandhändler sein, in bestimmten Fällen auch der Werbemittelhändler.

Registrierung und Meldepflicht zwingend

Die Zentrale Stelle führt das Verpackungsregister LUCID, in dem sich Unternehmen mit Stammdaten und Markennamen registrieren müssen. Zusätzlich müssen sie die von ihnen pro Jahr in Verkehr gebrachten Verpackungsmengen (differenziert nach Materialart) melden. Dies bedeutet konkret, dass sie alle Angaben, die sie im Rahmen der Systembeteiligung an das duale System gemeldet haben, gleichzeitig und gleichlautend auch an das Verpackungsregister LUCID übermitteln müssen. Umgekehrt ist für die Anmeldung beim dualen System die Registrierungsnummer der Zentralen Stelle zwingend anzugeben, sonst ist die Anmeldung nicht möglich. Auch die dualen Systeme selbst sind zur Datenmeldung verpflichtet. Bagatellgrenzen gibt es nicht. Registrierung und Meldepflicht können nicht auf Dritte übertragen werden. Über das Ver- >>

>> packungsregister kann demnach jederzeit nachgeprüft werden, wer seiner Produktverantwortung nachkommt. Dies soll fairen Wettbewerb fördern. Wer sich nicht gesetzeskonform verhält, geht also ein hohes Risiko ein, entdeckt zu werden. Im schlimmsten Fall drohen Vertriebsverbot für die betroffenen Produkte sowie Bußgelder in sechsstelliger Höhe. Verstöße können wettbewerbsrechtlich abgemahnt werden.

Viel Spielraum für Interpretation

Auch wenn sich die Erläuterungen in den Themenpapieren der Zentralen Stelle flüssig lesen und im Wesentlichen verständlich sind, bleibt wie bei jedem Gesetzestext viel Spielraum für Interpretation. Im Gesetz wird von im Zusammenhang mit Verkaufsverpackungen sowie systembeteiligungspflichtigen Verpackungen der unbestimmte Begriff „typischerweise" verwendet: „Verkaufsverpackungen, die typischerweise dem Endverbraucher als Verkaufseinheit aus Ware und Verpackung angeboten werden …" bzw. „mit Ware befüllte Verkaufs- und Umverpackungen, die nach Gebrauch typischerweise beim privaten Endverbraucher als Abfall anfallen …" Hier erkennt die ZSVR selbst das Problem der fehlenden Definition des Begriffs, der bereits in der VerpackV 2008 erstmals erwähnt wurde. Die Gesetzesbegründung spricht von „mehrheitlich" – auch daraus geht die Bedeutung dieses zentralen Begriffs also nicht zweifelsfrei hervor. Solche wenig konkreten Aussagen in einem entscheidenden Textteil erschweren es zusätzlich, die Systembeteiligungspflicht zu bestimmen. Daher kann es hilfreich sein, sich bei spezialisierten Dienstleistern oder Entsorgungsunternehmen beraten zu lassen.

Katalog soll Rechtssicherheit geben

Um hier mehr Klarheit zu schaffen, wurde von der ZSVR auf der Grundlage einer überprüfbaren empirischen Studie ein Katalog erstellt, der alle relevanten Konsumgüter und Branchen abdecken soll. Dabei werden die Produkte so abgebildet, dass die Systembeteiligungspflicht abgeleitet werden kann. Dieser Leitfaden, der die Einordnung erleichtern und Rechtssicherheit geben soll, wurde aber von unseren Gesprächspartnern aus der Branche als wenig hilfreich empfunden. Denn in der Werbeartikelbranche mit ihren speziellen Produkten und ihrer besonderen Vertriebsstruktur ergeben sich viele Fragen hinsichtlich der Systembeteiligungspflicht, die der Katalog nicht beantworten kann.

ZSVR gibt Hilfestellung

Die Zentrale Stelle hat die Aufgabe, Unternehmen Hilfestellung im Registrierungsprozess zu geben und steht Unternehmen als Anlaufstelle für rechtliche und inhaltliche Fragen zu ihren Pflichten zur Verfügung, sie darf jedoch nicht beraten. Die ZSVR weist ausdrücklich darauf hin, dass die Systembeteiligungspflicht zuerst unternehmensintern geklärt werden muss und sie für die Beantwortung von Grundsatzfragen nicht zuständig ist. Sie stellt jedoch umfassendes Informationsmaterial, Erklärfilme sowie detaillierte Anleitungen (etwa zum Hochladen von Markennamen) auf der Website bereit. Auf Antrag stellt sie die Systembeteiligungspflicht von Verpackungen fest. Dies ist eine ihrer im Gesetz definierten Aufgaben. Allerdings kann die Beantwortung von Anfragen monatelang dauern, auch konnten branchenspezifische Fragen in mehreren Fällen

nicht beantwortet werden, wie uns Hersteller und Händler berichteten. Auch wer sich an die ZVSR wendet, kommt also nicht unbedingt und schon gar nicht schnell weiter. Einen Überblick über die Arten von Verpackungen, ihre Einordnung im Sinne des Gesetzes sowie die sich hieraus ergebenden Pflichten gibt unser Glossar auf dieser und den Folgeseiten.

Fragen unternehmensintern klären

Ob ein bestimmtes Produkt lizensierungspflichtig ist und welcher Akteur in der Lieferkette dafür ggf. in die Pflicht genommen wird, sind also die Punkte, um die es im Grunde geht. Dabei müssen Lieferanten und Händler im Einzelfall die zentralen Fragen klären, wer als Hersteller gilt und wo die Verpackung letztlich als Abfall anfällt. Gerade letzteres ist in der Lieferkette für Werbeartikel nicht immer eindeutig. Deswegen ist es sehr wahrscheinlich, dass ein Werbeartikel-Lieferant einen Großteil der Verpackungen seiner Produkte lizensieren muss, auch wenn der Händler diese Produkte gar nicht an private Endverbraucher liefert. Warum? Die Kunden des Händlers werden mit hoher Wahrscheinlichkeit als so genannte „vergleichbare Anfallstellen“ eingestuft, da bei ihnen in Menge und Art ähnlicher Verpackungsmüll anfällt wie in Privathaushalten. Hierzu zählen laut Gesetz gewerbliche Endverbraucher, wie etwa Gaststätten, Verwaltungen und Behörden, >>

Typologie
der Verpackungen

Verkaufsverpackung

Sie dient zur Aufnahme, zum Schutz, zur Handhabung, zur Lieferung oder zur Darbietung von Waren. Sie wird dem Endverbraucher als Verkaufseinheit aus Ware und Verpackung angeboten und fällt typischerweise beim Endverbraucher als Abfall an. Hierzu zählen auch Serviceverpackungen und Versandverpackungen (Def. s.u.) sowie alle Bestandteile der Verpackung und Packhilfsmittel, wie etwa Etiketten, Aufhänghilfen, Verschlüsse.

Umverpackung

Umverpackungen fassen eine bestimmte Anzahl von Verkaufseinheiten zusammen und werden in dieser Form dem Endverbraucher angeboten. Sie werden wie Verkaufsverpackungen behandelt und sind systembeteiligungspflichtig.

Transportverpackung

Sie erleichtert Handhabung und Transport von Waren, so dass deren direkte Berührung sowie Transportschäden vermieden werden. Sie ist typischerweise nicht zur Weitergabe an den Endverbraucher bestimmt und daher nicht beteiligungspflichtig.

Versandverpackung

Eine Versandverpackung ermöglicht oder unterstützt den Versand von Waren an den Endverbraucher. Das gesamte Verpackungsmaterial inklusive des Füllmaterials, das beim Endverbraucher zur Entsorgung anfällt, gilt als Verkaufsverpackung und ist systembeteiligungspflichtig.

Serviceverpackung

Sie wird erst beim Letztvertreiber mit Ware befüllt. Typische Beispiele sind Brötchentüten, Fleischerpapier, Schalen für Pommes Frites, Coffee-to-go-Becher (Einweg) oder Tüten für Obst und Gemüse. Hier – und nur hier – darf derjenige, der diese Verpackungen erstmals mit Ware befüllt in Verkehr bringt (z. B. Bäcker, Fleischer, Imbiss, Café oder Händler), die Verpackung bereits mit der Systembeteiligung kaufen.

>> Hotels, kulturelle und karitative Einrichtungen, Handwerksbetriebe usw. Insofern sind Verpackungen von Produkten an diese Kunden systembeteiligungspflichtig, und zwar vom Hersteller im Sinne des Gesetzes.

Vergleichbare Anlaufstellen

In der klassischen Lieferkette der Branche ist dies in der Regel der Lieferant/Produzent, denn er ist es, der die Ware verpackt bzw. die Verpackung befüllt und erstmals in Verkehr bringt (an den Händler). Wer sich auf der Website der ZSVR die Liste der „vergleichbaren Anlaufstellen" ansieht, wird überrascht sein über die Bandbreite der hier aufgeführten Betriebe und Institutionen. Und sie alle können potenziell Werbeartikel einsetzen, die beim Endverbraucher als Abfall anfallen und damit lizensierungspflichtig sind. Verpackungen von Werbeartikeln, die dafür bestimmt sind, in Industrieunternehmen selbst genutzt zu werden, sind dagegen nicht systembeteiligungspflichtig. Dies gilt beispielsweise für Büroartikel, Speichermedien, Kalender, Tassen oder ähnliches, sofern sie im Unternehmen verbleiben.

Importeure ebenfalls in der Pflicht

Gehen wir nun einen Schritt weiter zurück: Als Hersteller/Erstinverkehrbringer gilt nicht nur ein Produzent in Deutschland, sondern auch derjenige, der systembeteiligungspflichtige Verpackungen gewerbsmäßig aus dem Ausland in den Geltungsbereich des VerpackG einführt. Hierzu gehören ausländische Importeure ebenso wie deutsche Unternehmen. Betroffen ist immer derjenige, der >>

Wichtige Begriffe

System
(oder „duales System")

Ein Unternehmen mit Genehmigung zum Betrieb eines Systems zur Rücknahme von systembeteiligungspflichtigen Verpackungen. Es muss verschiedene Voraussetzungen erfüllen, z.B. Nachweis von flächendeckenden Sammelstrukturen, die Abstimmung mit den öffentlich-rechtlichen Entsorgungsträgern und die Verfügbarkeit der notwendigen Sortier- und Verwertungskapazitäten.

Systembeteiligungspflicht
(Lizensierungspflicht)

Hersteller (i.S. des VerpackG) von systembeteiligungspflichtigen Verpackungen müssen sich an einem oder mehreren Systemen beteiligen. Sie sind verpflichtet, einen Lizenzvertrag mit dem dualen System abzuschließen, das dann für sie die Verpackungen beim privaten Endverbraucher bzw. der vergleichbaren Anfallstelle zurücknimmt und entsorgt.

Systembeteiligungspflichtige Verpackungen

Eine Verkaufs- und/oder eine Umverpackung, die durch einen Hersteller gewerbsmäßig abgegeben wurde und typischerweise bei privaten Endverbrauchern (private Haushalte oder diesen gleichgestellten Anfallstellen) als Abfall anfällt.

Gleichgestellte Anfallstellen

Diese Anfallstellen sind gesetzlich den privaten Haushaltungen gleichgestellt. Eine Liste dieser Anfallstellen findet sich auf der Website der ZSVR. Hierzu gehören Betriebe des Gaststätten- und Beherbergungsgewerbes, Handwerks- und Gewerbebetriebe, Bildungseinrichtungen, Dienstleistungsbetriebe, Kleingewerbe und z.T. Landwirtschaft, Kultur- und Freizeiteinrichtungen, Verwaltungen und Behörden, Kliniken usw. Reine Handelsunternehmen, die die Ware (ohne sie zu verarbeiten oder zu verändern), an einen anderen Händler weiterverkaufen, gehören nicht dazu.

Endverbraucher

Er veräußert die Ware in dieser Form nicht mehr weiter.

Bitte beachten Sie:
Das PSI darf und kann keine Rechtsberatung leisten.
Die Informationen auf diesen Seiten sind lediglich allgemeine Hinweise und können keine Beratung durch ggf. von Unternehmen zu beauftragende Rechtsanwälte ersetzen.

aus dem Verpackungsgesetz

Nicht systembeteiligungspflichtige Verpackungen

Exportverpackungen, die nachweislich nicht in Deutschland als Abfall anfallen, großgewerbliche Verpackungen (Anfall in der Industrie), Transportverpackungen, Mehrwegverpackungen, pfandpflichtige Einweggetränkeverpackungen, Verkaufsverpackungen schadstoffhaltiger Füllgüter. Verkaufs- und Umverpackungen, die typischerweise nicht beim Endverbraucher als Abfall anfallen (wie etwa Umverpackungen zur Regalbestückung, die beim Händler verbleiben). Für alle nicht systembeteiligungspflichtigen Verpackungen besteht jedoch Rücknahmepflicht. Alle Hersteller und Händler müssen sie unentgeltlich zurücknehmen.

Erstinverkehrbringer

Wer erstmals in Deutschland eine mit Ware befüllte Verpackung gewerbsmäßig (ggf. auch unentgeltlich) an einen Dritten mit dem Ziel des Vertriebs, des Verbrauchs oder der Verwendung abgibt, gilt als Erstinverkehrbringer im Sinne des VerpackG.

Hersteller

Hersteller im Sinne des VerpackG ist nicht der Hersteller der Verpackung, sondern derjenige, der die Verpackung mit Ware befüllt und sie dann erstmals in den Markt bringt. Hersteller in diesem Sinne ist in der Regel der Erstinverkehrbringer in Deutschland und damit verpflichtet, sich zu registrieren, sofern er gewerbsmäßig tätig wird. Hat dieser Hersteller aber seinen Sitz im Ausland, so kann auch der inländische Importeur als Erstinverkehrbringer in Deutschland und damit als Hersteller gelten. Ausschlaggebend hierbei ist, wer zum Zeitpunkt des Grenzübertritts die rechtliche Verantwortung für die Ware trägt. Die Kauf-/Lieferbedingungen werden jeweils zwischen den Handelspartnern festgelegt. (Incoterms) Es sollte auch vereinbart werden, wer die Meldung im Verpackungsregister vornimmt.

Importeur

Beim Import von systembeteiligungspflichtigen Verpackungen gilt dasjenige Unternehmen als Erstinverkehrbringer und damit als registrierungs- und meldepflichtig, das zum Zeitpunkt des Grenzübertritts die rechtliche Verantwortung für die Ware trägt. (s.o.) Das kann auch ein ausländisches Unternehmen sein. Auch Versandhändler mit Sitz im Ausland gelten als Importeure, wenn sie Waren direkt an private Endverbraucher in Deutschland liefern, wo die Produktverpackung wie auch die Versandverpackung samt Füllmaterial als Abfall anfallen.

Vollständigkeitserklärung

(nur bei Überschreitung von Grenzwerten)

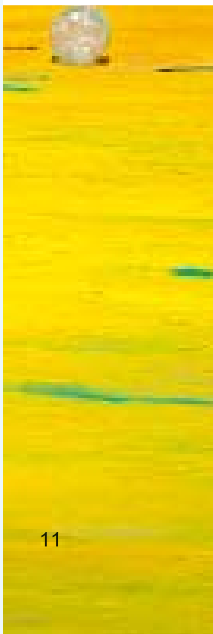

Hersteller, die systembeteilungspflichtige Verpackungen in Verkehr bringen, müssen jährlich bis zum 15. Mai eine Vollständigkeitserklärung abgeben, also die Menge der im vorigen Kalenderjahr tatsächlich in Verkehr gebrachten Verkaufs- und Umverpackungen melden. Diese Angaben müssen durch einen registrierten Prüfer bescheinigt und dann in LUCID hinterlegt werden. Diese Pflicht besteht erst, wenn folgende Grenzwerte überschritten werden:

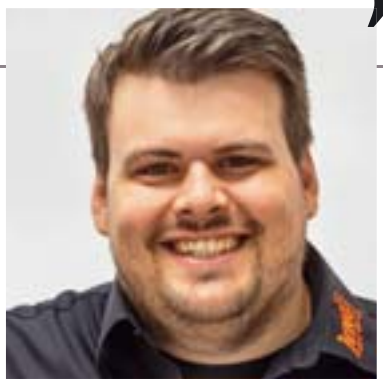

- Glas: 80.000 kg
- Papier, Pappe, Karton: 50.000 kg
- Eisenmetalle, Aluminium, Kunststoffe, Getränkekarton, sonstige Verbunde: 30.000 kg

Neu ist, dass die Vollständigkeitserklärung nicht mehr wie zuvor bei den IHKs, sondern bei der ZSVR hinterlegt werden muss.

Quelle: Zentrale Stelle Verpackungsregister

Für uns ändert sich nicht allzu viel im Vergleich zu den Vorjahren. Denn wir melden die Verpackungen aller Waren, die wir verkaufen, bei einem System an – wie wir es zuvor auch getan haben – ganz gleich, wer auf der Packung als Hersteller angegeben ist und wohin die Lieferung geht. Wir ignorieren den Grundsatz „wer draufsteht, der zahlt" bewusst, um den bürokratischen Aufwand in Grenzen zu halten. Sollten nun bei einem Kunden Anfragen eingehen, dann können wir bequem nachweisen, dass bezahlt worden ist. Damit gehen wir vielen Schwierigkeiten aus dem Weg und der Kunde ist auf der sicheren Seite. Den Ansatz, dass für entstehenden Müll bezahlt werden muss, begrüßen wir grundsätzlich, auch wenn das ganze Procedere ein wenig wie eine Schikane daherkommt …

„Wie schon zuvor lizensieren wir alle Verpackungen und gehen damit Schwierigkeiten aus dem Weg."

Dennis Dennig, Jung since 1828

Das neue Verpackungsgesetz ist gar nicht so neu: Es betrifft alle Unternehmen, die schon bisher nach der Verpackungsverordnung verpflichtet waren, für die Sammlung und das Recycling der Verpackungen ihrer gewerbsmäßig verkauften Produkte zu sorgen – wenn sie beim Endverbraucher als Abfall anfallen. Es nimmt also auch Werbeartikel-Unternehmen in die Pflicht, wenn ihre Produkte bestimmte Voraussetzungen erfüllen. Wirklich neu ist, dass sie die Angaben, die sie bei den Dualen Systemen machen, gleichzeitig auch an das neue Verpackungsregister melden müssen, das öffentlich einsehbar ist. Wer sich die Mühe macht, kann also Trittbrettfahrer ausfindig machen und zur Rechenschaft ziehen. Für alle, die sich bisher schon rechtskonform verhalten haben, ist das Verpackungsgesetz sogar eine gute Nachricht. Denn das System soll bewirken, dass die Kosten für Entsorgung und Recycling jetzt gerechter verteilt werden.

„Wer sich bisher schon korrekt verhalten hat, für den ändert sich nicht allzu viel."

Lutz Gathmann, Designer

>> zum Zeitpunkt des Grenzübertritts die Verantwortung für die Waren trägt. Dies wird im Kauf-/Liefervertrag geregelt, wo auch rechtverbindlich festgelegt werden sollte, wer die Systembeteiligung und Registrierung im Verpackungsgsregister durchführt. Auch ein Versandhändler im Ausland ist betroffen, wenn er an private Endverbraucher in Deutschland liefert. Er muss dann die Versandverpackung inklusive Füllmaterial sowie die Verpackungen der Produkte selbst lizensieren, immer vorausgesetzt, dass sie typischerweise beim privaten Endverbraucher als Abfall anfallen. Für Verpackungen, die aus Deutschland exportiert werden, gelten die Vorschriften des Ziellandes.

Auch Händler sind betroffen

Verfolgen wir nun einmal den Weg, den ein Produkt in der Handelskette nehmen kann. Eine Lieferung ist in Deutschland angelangt. Man kann also davon ausgehen, dass die Verpackungen etwa von Powerbanks, Tools oder Taschen bereits vom Produzent oder Importeur lizenisert worden sind. Die Kartons, in der die Ware geliefert wurde, gelten als Transportverpackungen, sie gelangen nicht an den Endverbraucher und unterliegen daher nicht der Beteiligungspflicht. Nun werden die Produkte über den Werbeartikelhändler weiterverkauft. Der verpackt nun Teile der Lieferung zusammen mit weiteren Produkten in eine neue Verpackung, um sie an seinen Kunden zu schicken. In diesem Fall bringt er dieses neue Gebinde in dieser Form erstmals in Verkehr und hat damit eine Versandverpackung zu lizensieren, sofern sie letztlich beim Endverbraucher anfällt. Gleiches gilt, wenn ein Händler die Produkte zuvor in Schmuck- oder individuell gestaltete Verpackungen umpackt. Auch wenn diese Verpackungen eine Zeitlang anders genutzt werden, sind sie ebenfalls zu lizensieren. Auch bereits gebrauchte Verpackungen müssen vom Händ-

„Ausländische Lieferanten sind oft nicht mit der EU-Gesetzgebung vertraut.“

Roland Liederbach, K+M

Ein kleiner Exkurs vorab: Die europäische Verpackungsrichtlinie 94/62/EC ist 1994 in Kraft getreten. Sie nahm die 28 Mitgliedsstaaten in die Pflicht, sie in nationales Recht umzusetzen – mit dem Ergebnis, dass es inzwischen 28 verschiedene Gesetze sowie über 100 Rücknahme-Systeme gibt. Die Lizensierungsmodelle sind sehr verschieden, es gibt also keine einheitlichen Vorgaben wie beispielsweise Mindestmengen, Recyclingquoten usw. Bei Exporten gelten immer die Vorschriften des Ziellandes. Das beachten wir, aber das erwarten wir auch von unseren Lieferanten. Mir fällt immer wieder auf, dass einige nicht mit der EU-Gesetzgebung vertraut sind. Sie kennen also oft nicht die Anforderungen, die aus dem neuen Verpackungsgesetz resultieren, das ja die Verpackungsrichtlinie 94/62/EC ersetzt, um deren Ziele weiter zu konkretisieren. Leider weigern sich manche ausländische Lieferanten hartnäckig, sich zu registrieren und die Lizenzgebühren abzuführen, obwohl sie dazu verpflichtet sind. Wenn wir die Verpackungsflut eindämmen, Recycling fördern und eine faire Finanzierung der Entsorgung sichern wollen, dann müssen wir auch alle dazu beitragen.

ler lizensiert werden. Diese Pflicht entfällt nur dann, wenn er nachweist, dass sie schon einmal an einem System beteiligt wurden. Händler müssen also immer beweisen können, dass eine Verpackung bereits lizensiert ist. Grundsätzlich gilt, dass der Letztvertreiber in Deutschland sicherstellen muss, dass die Verpflichtungen aus dem VerpackG eingehalten werden. Wenn unsicher ist, ob ein Produkt systembeteiligungspflichtig ist, macht es Sinn, eine entsprechende Argumentation in den Produktakten niederzulegen. So können Betroffene im Zweifelsfall begründen, warum sie ihr Produkt nicht lizensiert haben.

Full-Service und Streckengeschäft

Nun ist unser Werbeartikelhändler Full-Service-Dienstleister und arbeitet mit einem Logistikunternehmen zusammen, das Kommissionierung, Lagerhaltung, Verpackung und Versand übernimmt. In diesem Falle gehen die Pflichten auf diesen Dienstleister über nach dem Grundsatz: Derjenige, der die Ware in die Versandverpackung packt, ist zur Systembeteiligung und Registrierung verpflichtet – es sei denn, er ist nicht erkennbar. Sogar wenn überhaupt kein Absender auf der Verpackung steht, ist der Versender in der Pflicht. Nur in dem Fall, wenn allein der Händler (Verkäufer) auf der Verpackung erkennbar ist, muss dieser auch die Verpflichtungen laut VerpackG übernehmen. Maßgeblich ist also immer, wer als Absender auf der Verpackung angegeben ist. Nehmen wir nun an, der Werbemittelhändler bezieht Ware von seinem Lieferanten und lässt sie von diesem direkt an seinen Kunden schicken: Beim Streckengeschäft versendet der Lieferant die Ware im Auftrag des Letztverkäufers und muss sie daher am System beteiligen. Dass dies auch geschehen ist, sollte sich der Händler bestätigen lassen.

Sonderfall Kundenmarken

Eine Sonderstellung im Gesetz nehmen Kundenmarken/Eigenmarken ein: „Nicht als Inverkehrbringen gilt die Abgabe von im Auftrag eines Dritten befüllten Verpackungen an diesen Dritten, wenn die Verpackung ausschließlich mit dem Namen oder der Marke des Dritten oder bei- >>

Das Thema Verpackungsgesetz sorgt nach wie vor für Unsicherheiten. So bekommt man beispielsweise weder von der Zentralen Stelle noch von den einzelnen Entsorgungssystemen (Duales System, Interseroh, etc.) eine einheitliche Antwort etwa auf die Frage, ob diese oder jene Art von Verpackung nun lizenzierungspflichtig ist oder nicht. Wir haben es ausprobiert und bei drei verschiedenen Stellen angefragt – und drei unterschiedliche Antworten auf unsere Frage bekommen. Ein weiteres Problem: Die Zentrale Stelle kündigt bei individuellen Anfragen schon vorab sehr lange Wartezeiten an und sagt gleich dazu, dass die Auskünfte nicht rechtsverbindlich seien. Viele Kollegen und auch wir verhalten uns daher so, dass man auf Nummer sicher geht – wir lizensieren lieber zu viel als zu wenig und sparen uns dadurch eine Menge Verwaltungsaufwand. Wirtschaftlich ist das leider nicht. Wichtig ist in jedem Fall, dem Endkunden hier (soweit machbar) jeglichen Aufwand abzunehmen. Sonst riskieren wir, dass unsere Produkte am Ende wegen bürokratischer Hürden unattraktiv werden. Es lohnt sich jedenfalls, mehrere Systemanbieter anzufragen, denn es gibt hier deutliche Preisunterschiede. In unserem Fall waren das weit mehr als 1.000 Euro.

„Indem wir eher zu viel lizensieren, entlasten wir den Kunden – auch im eigenen Interesse.“

Tobias Köckert, Mahlwerck Porzellan

>> dem gekennzeichnet ist.“ (§ 3 Abs. 9) Einfacher könnte man sagen: Ein Lieferant, der im Auftrag des Händlers Werbeartikel für einen Industriekunden produziert oder abfüllt, ist Hersteller und muss daher auf der Verpackung ausgewiesen sein. Er trägt deswegen die Produktverantwortung auch im Sinne des VerpackG. Nur dann, wenn der Hersteller nicht auf der Verpackung erkennbar ist, geht die Herstellereigenschaft auf den Auftraggeber (also den Händler) über. Hier konkretisiert der Gesetzestext noch weiter: „Befindet sich auf der Verpackung der Name des Lohnherstellers mit dem Zusatz ‚hergestellt für…‘ mit Name/Marke des Handelsunternehmens, so bleibt der Lohnhersteller der Erstinverkehrbringer/Hersteller und damit der Verpflichtete im Sinne des Verpackungsrechts.“ Wir verdeutlichen das an einem Beispiel: Der Kosmetikhersteller Beauty Company AG füllt für den Händler Werbemittelprofi GmbH kleine Flaschen mit Shampoo und Bodylotion für dessen Kunden Mercure Hotels ab. Auf der Verpackung steht „Hergestellt von Beauty Company AG für Werbemittelprofi GmbH“, also ist die Beauty Company AG lizensierungspflichtig. Wenn jedoch die Werbemittelprofi GmbH als Hersteller genannt wird, dann ist diese verpflichtet – nicht etwa die Hotelkette. Dies gilt auch dann, wenn die Beauty Company AG die Ware verpackt und direkt an die Hotels ausliefert. Warum? Weil sie nicht nach außen in Erscheinung tritt.

Besonderheit bei Serviceverpackungen

Eine besondere Regelung gilt für Serviceverpackungen, also solche Verpackungen, die erst dort mit Ware befüllt werden, wo sie an den privaten Endverbraucher abgegeben werden. Hierzu gehören etwa Tragetaschen aus Papier oder Kunststoff, Einweggeschirr, Frischhalte- und Alufolie, Brötchentüten usw. Nur diese Verpackungen können bereits mit Systembeteiligung gekauft werden, das heißt, der Erstinverkehrbringer kann seine Pflichten an den Lieferanten abgeben. Wer diese Möglichkeit nutzt, darf nicht versäumen, sich die Systembeteiligung vom Verpackungslieferanten bestätigen zu lassen (wozu dieser übrigens verpflichtet ist).

Für die Branche sind aus dieser Kategorie vor allem bedruckte Tragetaschen relevant, denn sie sind gängige und wirksame Werbemittel. „Nachhaltigkeit und Transparenz sind von jeher zwei wichtige Säulen unserer Unternehmenswerte und da gehört ein ordentliches Recyclingsystem einfach dazu“, sagt Volker Riedle, Geschäftsführer von Bags by Riedle. „Daher bieten wir unseren Kunden jetzt ein Sorglos-Paket mit bereits vorlizenzierten Papiertragetaschen an. Dabei übernimmt Bags by Riedle die komplette Abwicklung getreu dem Verpackungsgesetz, der Kunde muss nichts weiter unternehmen. Und als Nachweis vor Behörden gilt einfach die Abrechnung des Auftrags.“ Die Branche hat also bereits reagiert.

Produkt oder Verpackung?

Gerade für die Werbeartikelbranche, die komplexe und innovative Produkte auf den Markt bringt, kann es eine besondere Herausforderung sein, die Grenze zwischen Produkt und Verpackung trennscharf zu ziehen. Entsprechend schwierig wird dann die Einordnung im Sinne des VerpackG. Die Definition, die der Gesetzestext hier liefert, lässt viele Möglichkeiten der Auslegung zu und wird auch künftig für Unsicherheit sorgen. Demnach handelt es sich nicht um eine Verpackung, „wenn der Gegenstand integraler Teil eines Produkts ist, der zur Umschließung, Unterstützung oder Konservierung dieses Produkts während seiner gesamten Lebensdauer benötigt wird, und alle Komponenten für die gemeinsame Verwendung, den gemeinsamen Verbrauch oder die gemeinsame Entsorgung bestimmt sind.“ (§ 3 Abs. 1). Hierüber wird noch viel diskutiert werden. Der GWW hat inzwischen Modelle entwickelt, die die Interessen der Branche berücksichtigen und ein entsprechendes Papier an die ZSVR adressiert. Dieser Katalog mit Lösungsvorschlägen ist der ZVSR auch über den BGA übermittelt worden, was der Eingabe noch mehr Gewicht verleihen soll. Eine Reaktion darauf lag allerdings bis Redaktionsschluss noch nicht vor. Auch diese noch ausstehende Stellungnahme wird der Branche im Umgang mit dem VerpackG nützlich sein. Wir halten Sie auf dem Laufenden. <

Gemeinsam schneller zum Ziel

Es bleiben leider immer noch Unsicherheiten, was die Lizensierungspflicht und das Procedere betrifft. Ein offener Austausch innerhalb der Branche zu diesen Themen macht daher Sinn und könnte manchem weiterhelfen. Nutzen Sie das PSI Journal also gern als Plattform und lassen Sie uns wissen, was etwa Ihre Anfragen an die ZSVR in schwierigen Fällen ergeben haben. Wir bereiten die Ergebnisse auf, so dass auch Ihre Kollegen von den Informationen profitieren können. Ich freue mich auf Ihre Mails an geppert@edit-line.de.

www.verpackung.org

Man bestellt ein Produkt im Internet. Geliefert wird es in einem viel zu großen Karton, verborgen unter einer Masse an Füll- und Stopfmaterialien aus Plastik, Styropor und Pappe. Geht das nicht intelligenter? Es geht! Amazon hat hierzu ein Programm entwickelt, das das Handling von Verpackungen vereinfacht, sie sicherer macht und zudem Müll vermeidet.

Amazon-Programm

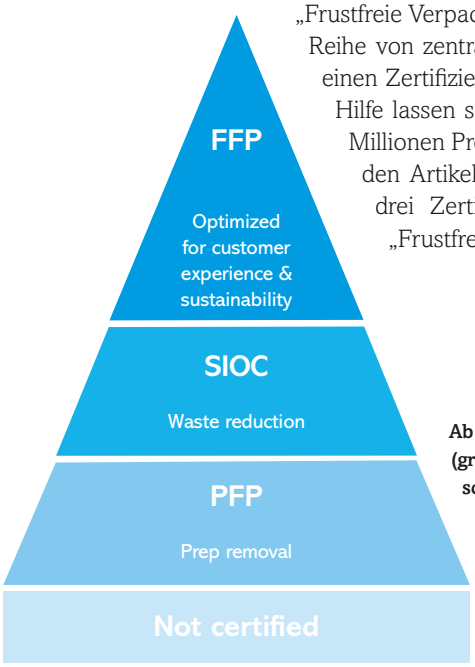

„Frustfreie Verpackung“

Verpackungen haben einen erheblichen Anteil am Müllaufkommen. Deswegen ist die Verantwortung für Entsorgung und Verwertung gesetzlich geregelt. Allerdings beginnt die Produktverantwortung schon bei der Entwicklung. Die sinnvollste Verpackung für das jeweilige Produkt zu entwerfen, ist bereits eine riesige Herausforderung. Dabei stellen sich etwa folgende Fragen:

> Welche Verpackungsgröße ist die richtige?
> Bietet sie ausreichend Schutz gegenTransportschäden?
> Was ist bei zerbrechlichen Produkten zu beachten?
> Erfüllt die Verpackung die chemischen Anforderungen?
> Wie ist das Handling? Lässt sie sich leicht öffnen?

Drei Zertifizierungsstufen

Der Internet-Riese Amazon hat daher das Programm „Frustfreie Verpackung“ ins Leben gerufen, das eine Reihe von zentralen Kriterien, Testmethoden und einen Zertifizierungsprozess umfasst. Mit dessen Hilfe lassen sich die grundsätzlichen Ideen auf Millionen Produkte übertragen. Das Ziel ist, jeden Artikel, den Amazon erhält, in eine der drei Zertifizierungsstufen des Programms „Frustfreie Verpackung“ einzuordnen:

Ab 1. Oktober 2019 müssen alle Artikel (größer als 45,5 x 34,0 x 26,5 cm oder schwerer als 12,3 kg), die auf Amazon verkauft werden, innerhalb des Programms „Frustfreie Verpackung“ als versandfertig (Tier 1 - FFP, Frustfreie Verpackung, oder Tier 2 - SIOC, Versand in Originalverpackung) konzipiert und zertifiziert werden.

> Stufe 1 – Frustfreie Verpackung (FFP)
> Stufe 2 – Versand in Originalverpackung
> Stufe 3 – Vorbereitungsfreie Verpackung (PFP)

Eine zertifizierte Verpackung muss das Produkt über die gesamte Lieferkette bis zur Haustür des Kunden vor Schäden schützen, ohne eine zusätzliche Verpackung oder Vorbereitung seitens Amazon nötig zu machen. So sorgt Amazon für weniger Verpackungsmüll und eine geringere Belastung der Umwelt. Die Verpackung muss leicht zu öffnen sein. Sie darf keinen „Auspackfrust“ verursachen, den Kunden so oft erleben. Natürlich müssen alle Verpackungsbestandteile recycelbar sein. Diese Kriterien hat Intertek sich zur bindenden Grundlage gemacht, um die Lieferanten bei der Einhaltung des Amazon-Programmes „Frustfreie Verpackung“ bestmöglich zu unterstützen.

Intertek unterstützt Lieferanten

Intertek ist im „Amazon Verpackung - Support- und Lieferantennetzwerk (APASS)“ gelistet. Im Bereich Assurance, Testing, Inspection & Certification ist Intertek als führender Anbieter von Qualitätssicherungslösungen rund um den Globus tätig. Mit dem International Safe Transit Association (ISTA)-Testprogramm kann das unabhängige Test- und Zertifizierunternehmen dabei unterstützen, Produktverpackungen noch sicherer zu machen. Dabei ist sicherlich hilfreich, dass Intertek sowohl nach ISTA für Verpackungstests zertifiziert als auch nach den zahlreichen Vorgaben des „Transit Tested“-Zertifizierungsprogramms für die genannten Verpackungstest-Dienstleistungen zugelassen ist. So können Mitgliedsorganisationen ihre Verpackungen etikettieren und Nicht-Mitglieder Testberichte zwecks Compliance erhalten. Intertek bietet mit einem Netzwerk von mehr als 1.000 Laboratorien und Büros sowie über 43.000 Mitarbeitern in über 100 Ländern globalen Support für Geschäftsbetrieb und Lieferketten. <

PSI Supplier Finder 2/2019 | Jetzt Profil aktualisieren

Der PSI Supplier Finder ist für Händler eine **wichtige Stütze** bei der Suche nach den für die individuellen Bedarfe geeigneten PSI Herstellern und Lieferanten. Deshalb wird **Aktualität** in diesem Verzeichnis **großgeschrieben**. Wer im PSI Supplier Finder steht, wird gefunden. Neben **Warengruppen mit Quellenangaben** für den Bezug von Produkten und Dienstleistungen enthält der PSI Supplier Finder zudem ein **umfangreiches Zertifikatsverzeichnis** mit Lieferanten, bei denen Qualität, Verantwortung und Nachhaltigkeit ihres Unternehmens sowie ihrer Produkte im Vordergrund stehen. Begleitet wird das Naschlagewerk mit Fokus-Themen sowie Trends und Brands aus der Werbeartikelbranche. **Zurzeit wird die Ausgabe 2/2019 aktualisiert.** Beste Gelegenheit für alle PSI Hersteller und Lieferanten, ihr Profil zu prüfen. Und das ganz einfach und bequem im Online-Service-Center. Übrigens: Auch Aussteller der PSI, PromoTex Expo und viscom 2020 können nun ihre Profile pflegen.

my PSI

PSI 2020 | Ticketshop geht online

Die gesamte Welt des Werbens und Verkaufens ist auch 2020 das Motto der drei Parallelveranstaltungen PSI, PromoTex Expo und viscom. Mit insgesamt 1.084 ausstellenden Unternehmen unterstrich die Premiere 2019 den Anspruch, **europaweit größter Veranstaltungsverbund zum Thema Werben und Verkaufen** zu sein. Aus dem Zusammenspiel der Veranstaltungen ergeben sich wertvolle Synergien für die Messeteilnehmer: Unter einem Dach wird der Weg vom Grundprodukt über die Veredelung bis zum Einsatz als Werbeartikel dargestellt. Das Besondere für PSI Mitglieder auch im kommenden Jahr: **Das Ticket für die PSI 2020** (7. bis 9. Januar) **berechtigt** wieder **zum** gleichzeitigen **Besuch der viscom**, der internationalen Fachmesse für visuelle Kommunikation, **sowie der PromoTex Expo**, der ebenfalls internationalen Fachmesse für Promotion-, Sports- und Workwear. Wer also in die Welt des Werbens und Verkaufens eintauchen möchte, ordert seine **Messekarten** am besten bequem **vorab im PSI Online Ticketshop.** Das spart Zeit und vor allem Geld beim Ticketkauf. **Mitte September 2019** geht der Ticketshop zur PSI 2020 online. Übrigens: Wer sich **bis 31. Oktober 2019** für den Kauf eines Tickets entscheidet, profitiert von den **Frühbucher-Konditionen**.

Trotz sorgfältiger Bearbeitung aller termingerecht eingegangenen Unterlagen können der Herausgeber und der Verlag keine Gewähr für vollständige und richtige Eintragungen übernehmen; Änderungen müssen vorbehalten bleiben. Auftraggeber, auch von Anzeigen, haben selbst bei ganz oder teilweise unleserlichem, unrichtigem oder unvollständigem Abdruck sowie bei irrtümlichem Nicht erscheinen keinen Anspruch auf Schadenersatz, der über den Rechnungsbetrag der Eintragung oder der Anzeige hinausgeht.

Despite careful processing of all documents submitted on time, the editor and publisher cannot guarantee that all entries will be complete and correct; entries must be subject to change without notice. Clients, including advertisers, cannot claim compensation for damages higher than the amount invoiced for the entry or the ad, even if the printing is, in full or in part, illegible, incorrect or incomplete, or if it does not appear at all.

Hinweis zur Datenschutzgrundverordnung DSGVO
Der Distributor/Supplier ist verpflichtet, bei dem Umgang mit personenbezogenen Daten, die der Distributor/Supplier anlässlich der Geschäftsbeziehung betreffend das PSI erlangt, höchste Sorgfalt walten zu lassen und die gesetzlichen Regelungen insbesondere der DSGVO einzuhalten.

Remark to the GDPR
The distributor/supplier is obliged to take greatest care when handling personal data related to PSI obtained by that distributor/supplier as part of the business relationship, and to comply with the statutory provisions of the GDPR, in particular.

Alle Angaben sind Selbstauskünfte der Händler und ohne Gewähr. |
Grundlage für die Verzeichnisse TOP100 und Distributoren Services sind die aktualisierten Angaben aus der Händler-Datenaktualisierung 2019 (April - August 2019).

All data are self-reported by the distributors, no responsibility is taken for correctness of these information. |
The directories TOP100 and Distributors Services are based on the updated data from the data update process 2019 (April - August 2019).

Der Distributor Finder wird nur an die dem PSI angeschlossenen Werbeartikel-Lieferanten abgegeben und ihnen im Rahmen des Mitglieds- und Servicevertrages überlassen. Er verbleibt im Eigentum des PSI. Der Mitglieds- und Servicevertrag beinhaltet u.a.: Dritten Personen ist keinerlei Einblick in den Distributor Finder zu gewähren, noch ist ihnen der Distributor Finder zur Ansicht oder Auswertung zu überlassen. Nachdruck oder Vervielfältigung – auch auszugsweise – ist nicht gestattet. Zuwiderhandlungen begründen einen Schadenersatzanspruch des PSI in unbegrenzter Höhe.

The Distributor Finder is available only to PSI affi liated promotional product suppliers in the context of the membership and service contract. It remains the property of PSI. The membership and service contract includes: no insight into the Distributor Finder must be granted to third parties, nor is it to be made available to third parties for the purpose of viewing or evaluation. Reprint or reproduction - including excerpts - is not permitted. Violations constitute a claim for damages by PSI for an unlimited amount.
