# Sicherheit und Qualität von Werbeartikeln

powered by **intertek**

## PSI kooperiert mit Intertek

Die Kooperation zwischen Intertek und dem PSI ist am 1. September 2017 gestartet.

Für PSI Mitglieder bedeutet das: Vergünstigte Workshops und Webinare, die zwischen Intertek und PSI Mitgliedern inhaltlich nach Bedarf abgestimmt werden können.

Das Seminarangebot umfasst:

- Qualitätssicherungskonzepte für Konsumgüter und Werbeartikel
- Risiko-Management
- Social Compliance Audits
- REACH-Konformität etc.

Bereits am Mittwoch, 20. September 2017, 16:00 Uhr, findet das erste kostenfreie Webinar „Sicherheit und Qualität von Werbeartikeln“ statt.

.....  
**niederländischen Konsumenten** geben an, in ihrer Kaufentscheidung für das Produkt eines Unternehmens durch einen entsprechenden Werbeartikel beeinflusst zu werden. Dies veröffentlichte der niederländische Werbeartikelverband PPP auf seiner Homepage.

**50** Prozent und mehr zertifizierte oder nach-

weislich nachhaltige Waren führen 28,9 Prozent der Lieferanten in ihrem Angebot. Bei den Händlern sind es sogar 43,3 Prozent.

**73,2%**

der Lieferanten verstehen sich als Hersteller mit Vertrieb für Werbeartikelhändler. Neben dem Vertrieb an den Händler liefern 29 Prozent der Hersteller auch direkt an Industriekunden.

**Jeder fünfte**

Lieferant konnte 2016 eine Umsatzsteigerung von bis zu zehn Prozent verbuchen. Jeder vierte (24 Prozent) immerhin bis zu fünf Prozent.

**Platz 1**

der europäischen Absatzmärkte für Werbeartikel belegt Deutschland. 64,5 Prozent der am Branchenbarometer teilnehmenden Lieferanten vertreiben hier ihre Produkte. Es folgen Österreich (60,3 Prozent) und die Schweiz (55,2 Prozent).

**10 Millionen**

Euro und mehr setzen 55 Prozent aller niederländischen Lieferanten mit Werbeartikeln um. International sind die Niederlande mit Abstand das umsatzstärkste Land. Zum Vergleich: Der europäische Durchschnitt in dieser Umsatzgruppe liegt bei 21,5 Prozent.

**2017**

steht unter optimistischen Vorzeichen. 26 Prozent der Lieferanten erwarten eine positive Umsatzentwicklung (bis zehn Prozent), ein Viertel gar bis 20 Prozent.

**Die Hälfte**

aller Lieferanten (56 Prozent) empfindet Nachhaltigkeitsnachweise und Zertifizierungen im eigenen Unternehmen als wichtig bis sehr wichtig. Bei den Händlern sind es 41 Prozent.

# Die Zeichen stehen auf Boom

Um verantwortungsbewusste Entscheidungen treffen zu können, müssen Unternehmer wissen, was im Markt vorgeht. Konjunkturaussichten, Unternehmensstrukturen, Absatzmärkte und Umsatzbringer: Mit dem europaweiten PSI Branchenbarometer hat das PSI 2015 ein eigenes Marktforschungs-Tool eingeführt, das zweimal im Jahr sowohl die aktuelle Lage als auch Trends der Branche abfragt und so regelmäßig Marktdaten und Brancheninformationen liefert, seien es Umsatzhöhe und -entwicklung, Maßnahmen zur Zertifizierung, Nachweise der Nachhaltigkeit oder auch Distributionskanäle – in einer europäischen Ausgabe und Länderspecials. Neben Deutschland sind in der mittlerweile fünften Ausgabe Frankreich, die Niederlande, Schweden, Großbritannien und Belgien die stärksten Teilnehmerländer.

## Positive Erwartungshaltung für 2017

Die Ausgabe 1/2017 bestätigt die positive Erwartungshaltung der Unternehmen aus dem zweiten Halbjahr 2016: Im Ergebnis war das vergangene Jahr umsatzstark. 17,6 Prozent der Lieferanten konnten einen Umsatz von bis zu 49 Millionen Euro verzeichnen. Knapp 20 Prozent der Händler vermeldeten einen Umsatz von bis zu einer Million Euro. Die Unternehmen waren jedoch nicht nur eifrig in finanzieller Hinsicht. Auch in puncto Maßnahmen zur Zertifizierung bzw. Nachweise der Nachhaltigkeit waren Lieferanten wie auch Händler sehr aktiv. OB BSCI, ISO, FSC, SEDEX oder auch andere Top-Zertifikate: Die Branche setzt auf quantifizierbare Nachhaltigkeit.

## Branche ist wichtiger Wirtschaftsfaktor

Dass die Werbeartikelbranche ein wichtiger Wirtschaftsfaktor ist, beweist das Branchenbarometer auch noch in anderer Hinsicht. So sind Werbeartikellieferanten und auch -händler wichtige Arbeitgeber. Knapp die Hälfte aller Werbeartikellieferanten, die sich am Branchenbarometer 1/2017 beteiligt haben, beschäftigt zwischen zehn und 49 Mitarbeiterinnen und Mitarbeiter. 17 Prozent sogar zwischen 100 und 499 Menschen. Jeder vierte Händler zählt bis zu neun Beschäftigte, gut 14 Prozent bis 24. Alle Ergebnisse der aktuellen Umfrage zeigt das PSI Branchenbarometer in dieser Ausgabe. <

## Vorwort

### PSI - Ein Netzwerk, das viel zu bieten hat!

Das PSI (Promotional Product Service Institute) dient der Werbeartikelwirtschaft in Europa und ihren Marktteilnehmern seit 55 Jahren als Dienstleister und Kontaktplattform. Seine Leistungen unterstützen über 6.000 Marktteilnehmer wie Hersteller, Importeure, Veredler, Händler und Agenturen bei ihrer täglichen Arbeit. Zentrale Dienstleistungen sind persönliche Beratung und Produktrecherche, Marketing, Weiterbildung, Branchenkontakte und Lösungen für die online Produktsuche. Diese Services ermöglichen es unseren Mitgliedsunternehmen Geschäft zu generieren und nachhaltig profitabel zu wachsen.

### PSI Branchenbarometer

Um verantwortungsbewusste Entscheidungen treffen zu können, müssen Unternehmer wissen, was im Markt vorgeht. Mit dem europaweiten PSI Branchenbarometer hat das PSI ein eigenes Marktforschungs-Tool konzipiert, das zweimal im Jahr sowohl die aktuelle Lage als auch Trends der Branche abfragt und so regelmäßig Marktdaten und Brancheninformationen liefert.

Die mittlerweile 5. Auflage des PSI Branchenbarometers ist mit 799 Teilnehmern eine der umfangreichsten Marktstudien der Werbeartikelindustrie in Europa.

Mit 89,6 Punkten liegt der PSI Konjunkturindex leicht unter dem Spitzenwert von 2016. Der Index spiegelt die Diskrepanz zwischen getätigtem Umsatz und erwarteten Umsatz wider. Auf Grund des eher schwachen Umsatzes 2016 und der hohen Erwartungshaltung bleibt der aktuelle Index unter 100 Punkten.

Erneut nimmt das Thema Nachhaltigkeit einen großen Raum in der Analyse ein. Die Ergebnisse zeigen, dass Nachhaltigkeit im Vergleich zum Vorjahr weiter an Bedeutung bei Herstellern und Händlern gewonnen hat. Der Anteil derjenigen, die Maßnahmen zur Zertifizierung oder Nachweise der Nachhaltigkeit ihrer Tätigkeit erlangt haben ist gegenüber 2016 weiter gestiegen. Erwähnenswert ist, dass der Großteil der Werbeartikel bereits zertifiziert und nachweislich nachhaltig ist.

Neu im Branchenreport wurden Fragen zur CSR-Berichtspflicht aufgegriffen, denn seit Anfang 2017 haben große kapitalmarktorientierte Unternehmen die Pflicht, standardisiert und messbar über Unternehmensethik, Sozialstandards und ihrem Umweltprofil zu informieren. Seitens der Händler und Lieferanten gibt es noch deutlichen Informationsbedarf. Konkrete Ergebnisse zum Kenntnisstand über die CSR-Berichtspflicht sind auf Seite 16 zu finden.

**Fühlen Sie sich zur CSR-Berichtspflicht, die am 1. Januar 2017 in Kraft getreten ist, ausreichend informiert?**

**FAZIT**

Seit Anfang 2017 haben große kapitalmarktorientierte Unternehmen die Pflicht, standardisiert und messbar darüber zu informieren, wie sich ihr Geschäftsgebaren auf Gesellschaft und Umwelt auswirkt. Bisher fühlen sich 18 % der Hersteller und 12 % der Händler zur CRS-Berichtspflicht ausreichend informiert.

**Informationen zur CSR Berichtspflicht:**

Die CSR-Berichtspflicht der EU ist seit dem 1. Januar 2017 in Kraft. Die Argumentation der EU zur Einführung der CSR-Berichtspflicht ist denkbar einfach: Der Verbraucher hat eine entsprechende Sensibilität gegenüber Produkten und den dahinter stehenden Unternehmen entwickelt und verlangt nach einer entsprechenden Transparenz. Der Konsument will wissen: Wie viel CSR steckt in meinem Produkt? Wie viel Nachhaltigkeitssubstanz in dem Unternehmen dahinter?

Auch Deutschland hat die CSR-Berichtspflicht Ende März rückwirkend zum 1. Januar 2017 in nationales Recht umgesetzt. Davon betroffen sind zunächst Konzerne mit mehr als 500 Mitarbeitern, darunter naturgemäß viele Aktienkonzerne. Ab sofort müssen die Geschäftsberichte einen eigenen CSR-Teil beinhalten. Die sogenannten pre-finanzielle Angaben geben Auskunft zu Unternehmensethik, Sozialstandards und

dem Umweltprofil. Ein besonderes Augenmerk gilt der Wahrung von Menschenrechten und der Vermeidung von Korruption. Dies schließt übrigens auch die Lieferketten mit ein.

Auf diesem Weg geraten nun Tausende mittelständische Unternehmen in Europa als Teil der Lieferketten unter die Nachhaltigkeitslupe. Denn nicht nur der Konsument will zunehmend das Nachhaltigkeitsprofil seiner Produkte im Einkaufswagen und der dahinterstehenden Anbieter kennen. Auch der Werbeartikeleinkäufer der von der EU CSR-Berichtspflicht erfassten Unternehmen und Marken will diese Transparenz. Mehr noch: Er muss sie von Gesetzes wegen einfordern.

Mehr Informationen zur CSR-Berichtspflicht finden Sie auf der Homepage des Bundesministeriums für Arbeit und Soziales:

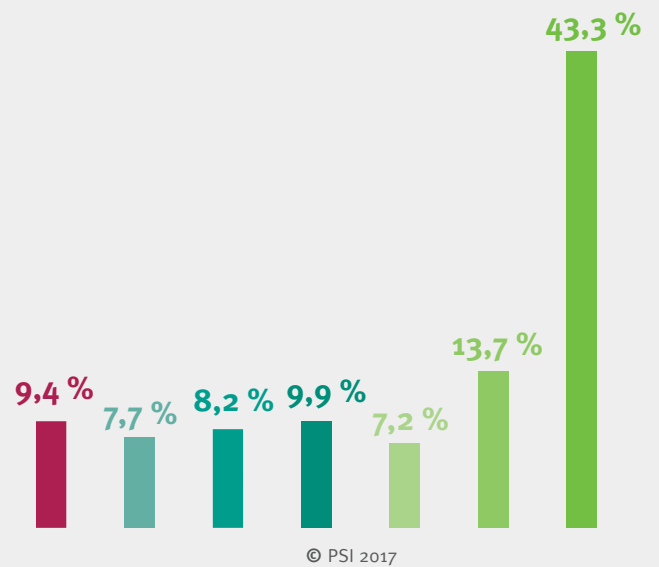

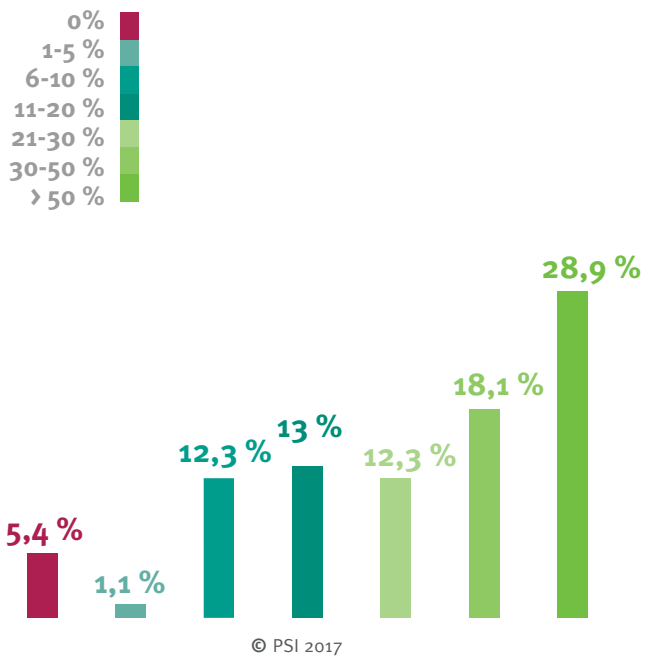

[www.csr-in-deutschland.de](http://www.csr-in-deutschland.de)

**Lieferanten**

**Händler**

Wie viel Prozent Ihrer Waren sind zertifiziert oder sind nachweislich nachhaltig?

Stolze 94,6 % der Lieferanten und 91,6 % der Händler geben an zertifizierte oder nachweislich nachhaltige Produkte im Sortiment zu führen. Dabei liegen 47 % der Lieferanten und 57 % der Händler über einem 30 prozentigen Anteil nachhaltiger Werbeartikel.

**WEEE-RICHTLINIE**

# Erweiterte Verantwortung

Die WEEE-Richtlinie verpflichtet Hersteller von Elektro- und Elektronikgeräten zu einer rechtskonformen Rücknahme und Entsorgung ihrer Altgeräte. Die 2012 veröffentlichte Novelle dieser Richtlinie bringt weitere Anforderungen mit sich. Ein Überblick.

**U**m Jahr 2012 wurde die Novelle der sogenannten WEEE-Richtlinie (waste electrical and electronic equipment) veröffentlicht. Zahlreiche Neuerungen rund um die erweiterte Herstellerverantwortung sollten auf dieser Grundlage bis 2014 in den EU-Mitgliedstaaten in Kraft treten. Zwar wurde diese Deadline nur vereinzelt von EU-Mitgliedstaaten eingehalten, jedoch haben mittlerweile (fast) alle Mitgliedstaaten die neuen Anforderungen vollständig in nationales Recht überführt. Hintergründe und Ziele der neuen Anforderungen sowie beispielhafte Auswirkungen auf die Hersteller von Elektro- und Elektronikgeräten sollen im Folgenden skizziert werden.

### Der Zweck der EU-Richtlinie

Das Kernziel der WEEE-Richtlinie ist der Schutz von Mensch und Umwelt. Zu diesem Zweck sollen Abfälle aus Elektro- und Elektronikgeräten, so weit es geht, vermieden werden. Eine weitere Maßnahme besteht darin, Abfälle fachgerecht zu behandeln – mit dem Ziel, Schadstoffe sicher zu entfrachten und Sekundärrohstoffe zu gewinnen. Darüber hinaus wurde eine erweiterte Herstellerverantwortung etabliert. Diese bringt zahlreiche Anforderungen an die Produkte, wie etwa Kennzeichnungspflichten, mit sich, regelt aber auch, wie sie in Verkehr zu bringen sind. Auf Grundlage der seit 2005 gesammelten Erfahrungen aus der Vollzugspraxis verfolgt die Novelle der WEEE-Richtlinie vor allem folgende Ziele:

- Steigerung der Sammel- und Verwertungsquoten
- Vermeidung von illegalen Exporten
- EU-weite Harmonisierung der Anforderungen
- Erhöhung der Transparenz
- Erleichterung des Vollzuges

Auf den Punkt gebracht: Das „System WEEE“ soll effizienter werden. Es soll mehr E-Schrott gesammelt und konform verwertet sowie die Bekämpfung sogenannter Trittbrettfahrer erleichtert werden.

&gt;&gt;

# für Hersteller

## >> Änderungen am Beispiel des deutschen Elektro- und Elektronikgerätegesetzes

In Deutschland ist das novellierte ElektroG (Elektro- und Elektronikgerätegesetz) 2015 in Kraft getreten. Ein Großteil der Übergangsfristen ist mittlerweile abgelaufen. Somit sind fast alle Neuregelungen in Kraft. Das bloße Anbieten von Elektro- und Elektronikgeräten kann nun bereits eine Herstellerverpflichtung nach sich ziehen. Ebenso muss der Hersteller in Deutschland niedergelassen sein oder aber alternativ einen Bevollmächtigten zur Erfüllung seiner Verpflichtungen in Deutschland benennen. Aktive Registrierungen „ausländischer“ Hersteller werden in der Folge nach und nach seitens der „gemeinsamen Stelle der Hersteller“, der stiftung ear (Stiftung Elektro-Altgeräte Register), geprüft und aufgehoben. Hintergrund dieser Maßnahmen ist unter anderem ein leichter Vollzug des Gesetzes. Insbesondere Ordnungswidrigkeiten und finanzielle Forderungen können innerhalb eines Mitgliedstaates deutlich einfacher verfolgt und durchgesetzt werden. Die Hinterlegung der Finanzierungsgarantie für B2C-Geräte hat seit 2016 innerhalb eines Kalenderjahres zu erfolgen. Kalenderjahrübergreifende Garantiegültigkeitszeiträume sind folglich nicht mehr möglich. Zudem muss der stiftung ear im Garantiefall ein direkter Zugriff auf den Garantiebetrug ermöglicht werden, sodass eine Treuhandlösung keine Option mehr darstellt.

### Rücknahme, Meldung, Erfassung

Das Hauptziel, die Steigerung der Sammelquoten, soll insbesondere durch die neue Rücknahmeverpflichtung des Handels erreicht werden. Sofern der stationäre beziehungsweise der Online-Handel die gesetzlich definierten Kriterien erfüllt, ist er zur kostenlosen Rücknahme bestimmter Elektro- und Elektronikgeräte vom Endnutzer verpflichtet. Die Intention hierbei ist, dem Endnutzer die Entsorgung seiner Altgeräte möglichst komfortabel zu gestalten. Die flächendeckende Sammelstruktur ist ein Instrument,

## Neues Informationsportal www.ElektroG.de

### Aktuelles Faktenwissen zum ElektroG für alle Akteure

**M**it dem öffentlichen und neutralen Informationsportal [www.ElektroG.de](http://www.ElektroG.de) bietet der Umweltdienstleister Hellmann Process Management seit 2016 einen neuen nützlichen Service für alle Akteure des ElektroG an. Das Portal gibt klare, verständliche und umfassende Antworten auf alle Fragen rund um die Novellierung des Elektro- und Elektronikgerätegesetzes (ElektroG) und der Ressourcenschonung.

#### Wichtiges auf einen Blick

Im Rahmen einer von der Deutschen Bundesstiftung Umwelt (DBU) fachlich und finanziell geförderten Ausstellung

„E(h) alles nur Schrott?!“ hatte sich gezeigt, dass beim Verbraucher, beim Handel und in der Industrie erhebliche Informationsdefizite zur Entsorgung ausrangierter Elektrogeräte bestehen. So wurde klar, dass ein Informationsportal flächendeckend über den korrekten Umgang mit Elektro- und Elektronikaltgeräten informieren muss. Denn nur so können illegale Abfalltransporte vermieden und natürliche Ressourcen geschont werden. Als Konsequenz daraus wurde nun das Informationsportal [www.ElektroG.de](http://www.ElektroG.de) durch den Osnabrücker Umweltdienstleister Hellmann Process Management (HPM) entwickelt. Es bietet Herstellern, Vertreibern, öffentlich-rechtlichen Entsorgungsträgern, Bürgern und Entsorgern alle wichtigen Informationen auf einen Blick.

## Wer gilt als Hersteller?

„Hersteller“ ist jede natürliche oder juristische Person, die, unabhängig von der Verkaufsmethode, einschließlich der Fernkommunikationstechnik im Sinne der Richtlinie 97/7/EG des Europäischen Parlaments und des Rates vom 20. Mai 1997 über den Verbraucherschutz bei Vertragsabschlüssen im Fernabsatz,

- in einem Mitgliedstaat niedergelassen ist und Elektro- und Elektronikgeräte unter ihrem eigenen Namen oder Warenzeichen herstellt oder Elektro- und Elektronikgeräte konzipieren oder herstellen lässt und sie unter ihrem Namen oder Warenzeichen innerhalb des Hoheitsgebiets dieses Mitgliedstaats vermarktet,
- in einem Mitgliedstaat niedergelassen ist und im Hoheitsgebiet dieses Mitgliedstaats Geräte anderer Anbieter unter ihrem eigenen Namen oder Warenzeichen weiterverkauft, wobei der Weiterverkäufer nicht als „Hersteller“ anzusehen ist, sofern der Markenname des Herstellers gemäß Ziffer i auf dem Gerät erscheint,
- in einem Mitgliedstaat niedergelassen ist und auf dem Markt dieses Mitgliedstaats Elektro- oder Elektronikgeräte aus einem Drittland oder aus einem anderen Mitgliedstaat gewerblich in Verkehr bringt oder
- in einem Mitgliedstaat Elektro- oder Elektronikgeräte mit Hilfe der Fernkommunikationstechnik direkt an private Haushalte oder andere Nutzer als private Haushalte vertreibt und in einem anderen Mitgliedstaat oder in einem Drittland niedergelassen ist.

um größere Mengen an Altgeräten zu erfassen und einem zertifizierten Recyclingprozess zuzuführen. Auch die Anzeige- und Meldepflichtungen aller Beteiligten – insbesondere aber der Hersteller, Vertreiber und öffentlich-rechtlichen Entsorgungsträger – sind vor dem Hintergrund der ambitionierten Sammelziele deutlich erweitert worden. So sind die Hersteller beispielsweise verpflichtet, zusätzlich zu den bekannten Meldungen auch sogenannte mittelbare Exporte – also in Deutschland in Verkehr gebrachte Mengen, die seitens der Kunden nachweislich ins Ausland verbracht worden sind – zu reportieren. Die transparente Er-

fassung hat zur Folge, dass die in Deutschland in Verkehr gebrachte Menge reduziert wird und dadurch die Sammelquote steigt. Um eine sachgerechte Behandlung und ressourceneffiziente Verwertung gesammelter Altgeräte zu unterstützen, ist zudem die Erfassung angepasst worden. So wurden beispielsweise die sogenannten Sammelgruppen bei den öffentlich-rechtlichen Entsorgungsträgern neu geordnet und es erfolgt eine getrennte Erfassung von Geräten mit beziehungsweise ohne Batterien. Zur Vermeidung illegaler Exporte von Altgeräten sind darüber hinaus die Anforderungen an den Export gebrauchter Elek- >>

### Antworten auf Fragen aus der Praxis

Für jeden Akteur gibt es eine speziell auf ihn zugeschnittene Unterseite mit Antworten auf die in der Praxis entstehenden Fragestellungen, wichtigen Hinweisen, Tipps und Handlungsempfehlungen. Das Besondere daran ist: Das Informationsportal ist neutral gehalten und wird un-

ter anderem vom Handelsverband Deutschland – HDE e.V., dem Bundesverband E-Commerce und Versandhandel Deutschland e.V. (bevh), dem Bundesdeutschen Arbeitskreis für Umweltbewusstes Management (B.A.U.M.), der BITKOM Servicegesellschaft mbH, dem Industrieverband Garten (IVG) e.V., der Utopia GmbH sowie dem bvse-Bundesverband Sekundärrohstoffe und Entsorgung e.V. unterstützt. Die Vielfaltigkeit der Unterstützer gewährleistet den Akteuren immer die aktuellsten Informationen rund um das ElektroG.

### Stetige Aktualisierung

„Mit dem Informationsportal [www.ElektroG.de](http://www.ElektroG.de) ist es erstmalig gelungen, alle Akteure – vom Hersteller bis zum Bürger – über die Rückgabe von Elektro- und Elektronikgeräten zu informieren. Mit der Rücknahmeverpflichtung des Handels sind zum Beispiel diverse Vorschriften bezüglich der Anzeige-, Mitteilungs- und Informationspflicht verbunden. Wir aktualisieren die Seite stetig, um den Nutzern eine kompetente und hilfreiche Plattform zu bieten“, kommentiert der Geschäftsleiter von HPM, André Pohl. <

>> tro- und Elektronikgeräte drastisch verschärft worden. Gemäß dem Prinzip der Beweislastumkehr muss der Versender nun die Absicht der Wiederverwendung ebenso wie die Funktionalität der Geräte nachweisen. Hierfür sind unter anderem aufwändige Prüfdokumentationen für jedes Gerät erforderlich.

### WEEE in der EU

Ein Großteil der oben beschriebenen Änderungen ist in vergleichbarer Weise auch in den anderen EU-Mitgliedstaaten in nationales Recht überführt worden. Dennoch ist eine individuelle Betrachtung der nationalen Anforderungen für die WEEE-Compliance unerlässlich. Denn trotz Harmonisierungsbestrebungen werden einige Anforderungen noch immer nicht einheitlich umgesetzt. Beispielhaft genannt seien hier Kennzeichnungs-, Informations- und Mitteilungsverpflichtungen, aber auch Anforderungen an den Ausweis von Registrierungsnummern oder die Rechnungslegung. Auch die Marktstruktur, geprägt von den im EU-Ausland regelmäßig genutzten kollektiven Systemen, ist alles andere als einheitlich. Ein langfristiger Partner sollte daher individuell und sorgfältig ausgewählt werden.

### Fortschritte bei der Harmonisierung

Nichtsdestotrotz hat die Novelle mit Blick auf die Harmonisierung Fortschritte mit sich gebracht. In der Regel wird der Erstinverkehrbringer von Elektro- und Elektronikgeräten, beispielsweise der Produzent oder der Importeur, als Hersteller im Sinne des Gesetzes betrachtet. Dennoch muss auf Basis der Novelle jeder Mitgliedstaat eine Möglichkeit schaffen, damit sich im Ausland ansässige Händler über die Benennung eines Bevollmächtigten im jewei-

ligen Mitgliedsstaat registrieren können. Vorbehaltlich einzelner Ausnahmeregelungen beziehungsweise Bagatellgrenzen ist diese Form der Registrierung nunmehr für alle Hersteller verpflichtend, die ihre Elektro- und Elektronikgeräte direkt an einen Endnutzer in einem anderen Mitgliedstaat vertreiben. Für im Ausland ansässige Online-Händler beziehungsweise Vertreiber im Rahmen der Fernkommunikation werden auf dieser Basis die gleichen Marktzugangsvoraussetzungen und Vollzugsmöglichkeiten etabliert, die auch für im Inland agierende Hersteller bestehen. Auch der Anwendungsbereich ist durch erweiterte Legaldefinitionen noch einmal spezifiziert worden. Zudem wurden Leuchten für private Haushalte und Photovoltaik-Module in allen Mitgliedsstaaten neu in den Anwendungsbereich des Gesetzes aufgenommen.

### Ausblick: 2018 und darüber hinaus

Weitreichende Anpassungen sind im Jahr 2018 zu erwarten, wenn die in den meisten Mitgliedstaaten implementierten zehn Gerätekategorien auf sechs Kategorien reduziert werden. Die Reduzierung hat einen deutlich offener gestalteten, weiter gefassten Anwendungsbereich und somit neue, registrierungspflichtige Produkte/Hersteller zur Folge. Ferner bringen die neuen Kategorien mit sich, dass für die Hersteller ein neues Größenkriterium relevant wird: die maximale Kantenlänge. Ob eine Kantenlänge größer oder kleiner als 50 Zentimeter ist, entscheidet zukünftig über die Kategorisierung als Groß- beziehungsweise Klein-gerät. Der Registrierungsumfang, das Produktportfolio und die Stammdaten im ERP-System sollten auf dieser Basis schon einmal auf zukünftig notwendige Anpassungen geprüft werden. Zudem sollen 2019 die Sammelziele ausgebaut werden. Vor diesem Hintergrund sind weitere Gesetzesanpassungen und eine Aus-

weitung der Verpflichtungen für alle Beteiligten nicht auszuschließen. Unter dem Strich stellt Compliance im Zuge der erweiterten Herstellerverantwortung noch immer eine große Herausforderung dar – auch, weil vergleichbare EU-weite Verpflichtungen ebenfalls für Batterien und Verpackungen gelten. Compliance ist kein „nice to have“, sondern die Grundlage für konformen Marktzugang und Wettbewerbsfähigkeit. Und das nicht zuletzt auch deshalb, weil die Transparenz immer größer wird und Ordnungswidrigkeiten zunehmend verfolgt werden. <

## WEEE-Richtlinie und Werbeartikel

Insbesondere bei Werbeartikeln stellt sich immer wieder die Frage nach dem Hersteller im Sinne des Gesetzes. Zur Klärung dieser Frage sind auf Basis der Definition in erster Linie zwei Punkte zu betrachten: Wer ist der Erstinverkehrbringer der Werbeartikel in einem Mitgliedstaat? Und: Wie ist ein (im Inland vertriebenes) Produkt hinsichtlich der Herstelleridentifikation gekennzeichnet? Die Herstelleridentifikation stellt eine maßgebliche Produkthanforderung dar. Sie erfolgt in aller Regel durch die Kennzeichnung der Produkte mit einer Marke (Symbol oder Schriftzug). Werden beispielsweise Produkte für einen Kunden gefertigt und ausschließlich die Marke des Kunden auf dem Produkt angebracht, so wird der Kunde als Hersteller im Sinne des jeweiligen Gesetzes definiert (OEM).

**Redaktionsschluß / Editorial deadline:**

18.08.2017  
 Trotz sorgfältiger Bearbeitung aller termingerech eingegangenen Unterlagen können der Herausgeber und der Verlag keine Gewähr für vollständige und richtige Eintragungen übernehmen; Änderungen müssen vorbehalten bleiben. Auftraggeber, auch von Anzeigen, haben selbst bei ganz oder teilweise unleserlichem, unrichtigem oder unvollständigem Abdruck sowie bei irrtümlichem Nicht erscheinen keinen Anspruch auf Schadenersatz, der über den Rechnungsbetrag der Eintragung oder der Anzeige hinausgeht.

Despite careful processing of all documents submitted on time, the editor and publisher cannot guarantee that all entries will be complete and correct; entries must be subject to change without notice. Clients, including advertisers, cannot claim compensation for damages higher than the amount invoiced for the entry or the ad, even if the printing is, in full or in part, illegible, incorrect or incomplete, or if it does not appear at all.  
 Erfüllungsort und Gerichtsstand / Court of jurisdiction: Düsseldorf

Der Distributor Finder wird nur an die dem PSI angeschlossenen Werbeartikel-Lieferanten abgegeben und ihnen im Rahmen des Mitglieds- und Servicevertrages überlassen. Er verbleibt im Eigentum des PSI. Der Mitglieds- und Servicevertrag beinhaltet u.a.: Dritten Personen ist keinerlei Einblick in den Distributor Finder zu gewähren, noch ist ihnen der Distributor Finder zur Ansicht oder Auswertung zu überlassen. Nachdruck oder Vervielfältigung – auch auszugsweise – ist nicht gestattet. Zuwiderhandlungen begründen einen Schadenersatzanspruch des PSI in unbegrenzter Höhe.

The Distributor Finder is available only to PSI affiliated promotional product suppliers in the context of the membership and service contract. It remains the property of PSI. The membership and service contract includes: no insight into the Distributor Finder must be granted to third parties, nor is it to be made available to third parties for the purpose of viewing or evaluation. Reprint or reproduction - including excerpts - is not permitted. Violations constitute a claim for damages by PSI for an unlimited amount.
